

PRODUCT LEAFLET

Kitchen appliances

AF 1500 Air Fryer +

- Multifunctional deep fryer: frying, grilling, baking and heating without fat
- Capacity 6.5l | Power 1500W
- Steam cooking function
- 15 programmes (including 5 with steam function)
- Touchscreen LED panel with programmes and customisation options

WK 2501

WK 2501 Standard Black/White Electric kettle

- „Cool touch“ enclosure
- Capacity: 1.7l | Power: 1500-1800W
- Removable anti-limescale filter (fine mesh)
- Double safety system: automatic switch-off after boiling water plus dry boil protection
- Automatic lid opening

WK 2502

WK 2502 Compact Glass Black/White Electric kettle

- Heat-resistant glass body
- Capacity: 1.2l | Power: 1370-1630W
- Removable anti-limescale filter (strainer)
- Double safety system: automatic switch-off when water boils and protection against dry cooking
- Blue LED backlight

WK 2503

WK 2503 Compact + Black/White Electric kettle

- „Cool touch“ housing: inside glass body, outside high-quality plastic
- Capacity: 1.0l | Power: 900-1100W
- Digital temperature display
- Five levels of temperature setting
- Memory function and keep-warm function

PK 2018

CP 2018

Premium Line **Glass Kettle**

- Power: 1850–2200W
- Capacity: 1.7l
- STRIX technology
- Anti-limescale filter

WK 2020

JC 2020

Electric kettle with temperature control

- Power: 1850–2200W
- Capacity: 1.8l
- Five temperature settings
- Keep warm function
- Anti-limescale filter
- Coloured LED backlighting

WK 180 PLUS

WK 1801

WK 180 PLUS

Electric kettle

- Power: 1800W
- Capacity 1.8l
- Double wall – thermos effect
- Built-in safety systems

WK 1801

Electric kettle

- Power: 1800W
- Capacity 1.8l
- Top quality stainless steel
- Built-in safety systems

JK 1200 Titanium Silver Strong

JK 1200 Titanium Black Strong

JK 1200 Titanium Black & Silver Strong Hand blender

- Reliable 1200W high-power motor
- Titanium-reinforced 4-point gold blade
- 15-stage stepless speed control and "TURBO" function
- Ideal for blending and crushing ice
- BLACK – Footplate with nylon cover to protect the vessel from scratches
- SILVER – Footplate with cup guard to prevent food splattering

JK 1500 Titanium Black Extra Strong Deluxe Blender set

- Powerful 1500W motor
- Titanium-reinforced 4-point gold blade
- 15-stage stepless speed regulation and "TURBO" function
- Foot with nylon cover to protect the vessel from scratches
- Includes: shredder with 2-arm blade, container and whisking tip

HOT&COLD 2022

Cup blender with cooking function

- Power: 1500W
- High-speed cooking technology with 600W
- Glass cup with a capacity of 1.75l (cold) and 1.4l (hot)
- 9 speed settings (up to 23,500 rpm)
- 8 programmes (4 cooking, 3 cold blending and 1 washing programme)
- Accessories and recipe book included

HOT&COLD 2022

BL 1000 Cup blender

- Powerful motor: 1000W
- Glass cup with an operating volume of 1.5 l and a wall thickness of 7 mm
- 4 speeds + PULSE function
- 6 stainless steel blades designed for maximum performance
- Ideal for crushing ice, making smoothies and cocktails
- Dosing opening for storing ingredients while the blender is running

PM 102

Electric salt and pepper grinder

- Ceramic grinding mechanism
- Spice capacity: 60 ml
- Adjustable grinding fineness
- LED backlighting
- Battery power supply: 6xAA

CG 001

Coffee grinder

- Power: 160W
- Pulsed operation
- Stainless steel housing
- 2-armed blade

JC 2018

Juicer

- Power: 800-1000W
- 2 speed modes
- Juice jug capacity: 1l
- Pulp container : 1,5l

CG 2019

Bean coffee grinder

- Power 200W
- Tank capacity 240g coffee beans
- Selection of quantity of ground coffee - 2-14 cups
- 18-stage regulation of coffee bean grinding thickness

TG 2018

Electric grill

- Non-stick coating with a marbled appearance
- Power: 1600W
- Opening angle 180°
- Temperature control: 120-220°C

SW 8801

Waffle maker

- INOX housing
- Power: 1000W
- Ideal for baking two waffles at the same time
- Non-stick coating
- Anti-slip feet

SM 2019 XL

SM 1004S

TS 50B

HM 2019

SM 2019 XL

3-in-1 toaster

- Stainless steel housing
- Power: 1000W
- Plates: sandwich, grill, waffle with non-stick coating

SM 1004S

Sandwich maker

- INOX housing
- Power: 750W
- Ideal for toasting two sandwiches, omelettes and eggs
- Non-stick coating
- Non-slip feet

TS 50B/B&W

Two-slice toaster

- Power: 600-700W
- 7-stage toasting time adjustment
- Additional "stop" function
- Pull-out crumb tray

HM 2019

Hand mixer

- Power: 300W
- 5-speed control and TURBO function
- Compact dimensions and comfortable handle
- Available included with bowl and base (model MS-2019)

Domestic appliances

SI 3000 BOTTLE GREEN

Steam iron

- Very high power: 3000W
- Dry and steam ironing function
- Can be ironed vertically
- "Fireman" function
- Anti-Drip and Anti-Calc systems
- Self-cleaning function

SI 2800 AVOCADO

Steam iron

- High power: 2800W
- Dry and steam ironing function
- Can be ironed vertically
- "Fireman" function
- Anti-Drip and Anti-Calc systems

SI 920

SI 920

Steam iron

- Power: 1800-2200W
- Nano-ceramic alloy
- Constant steam emission: 35g/min; Steam output: 160g/min
- Water tank capacity: 400ml
- Anti-Drip system (prevents dripping)
- Anti-Calc system (to prevent limescale build-up)
- Automatic cleaning function (Self-Clean)

SI 720

Steam iron

- Power: 2200W
- Ceramic foot
- Water tank capacity: 220ml
- Function "fireman"
- Steam ejection and self-cleaning function
- Drip stop

OP 2019

Upright hoover

- 2 in 1: hand vac, upright hoover (+2 additional nozzles and charging station)
- 2 power levels | power: 115 W
- LED lighting on the brush
- Folding handle
- Power: 115W
- Operating time - up to 60 min (battery: 21.6 V; 2200mAh)

OT 2022

Bagged hoover

- Power range: 750-880W
- Rated power: 800W
- Energy efficiency class: A
- HEPA 13 exhaust filter
- Capacity of dust bag: 2.5l
- Full bag indication

SI 720

OP 2019

OT 2022

CBX 8 Cool&Go S Tourist fridge

- Compact volume: 8 l
- Effective cooling
- Effective heating
- Two power options: mains and car
- Convenient to carry
- Magnetic cover

NEW

CBX 24 Cool&Go L Tourist fridge

- Large capacity: 24 l
- Efficient cooling
- Effective heating
- Two power options: mains and car
- Eco mode for mains power supply
- LEDs indicating operating mode

CBX 33 Cool&Go XL Tourist fridge

- Extra large capacity: 33 l
- Efficient cooling
- Effective heating
- Two power options: mains and car
- Eco mode for mains power supply
- LEDs indicating operating mode

NEW

Hair dryer with BLDC motor

Hyper Air IQ 1.0

- Power: 1800W
- Intelligent *HYPER AIR* drying technology
- Super-fast, quiet and durable BLDC motor
- Advanced settings of three temperature levels and three speed levels
- 6x faster drying*
- 5x speed (up to 110,000 rpm)
- 40x longer motor life (up to 10 000 operating hours)

* Compared to traditional dryers. Maximum values.

HD 2400

NEW

HD 2400

Hair dryer

- Maximum power: 2400W
- Ionisation function
- Cold air blow "cool shoot" function
- 3 levels of temperature control
- 2 fan speed levels
- Folding handle and hanging bracket

HD 212

HD 212

Hair dryer

- Compact hair dryer
- Power: 1200W
- Folding handle and hanging bracket
- Two-stage regulation of blowing speed

SD 809

SD 809

Hair dryer

- Travel hair dryer
- Power: 1200W
- Folding handle
- Two blower speed settings

ES 2019

ES 2019

Men's shaver

- 3 rapid heads for a close shave
- Pivoting trimmer for trimming
- Working time up to 45 min.
- Wet and dry shaving possible

SG 515

SG 516

SG 515/516

Sonic toothbrush

- SonicTwist technology
- Dupont anti-bacterial nylon bristles
- Three functions: whitening, cleaning, gentle massage
- 2-minute timer
- Battery power supply
- USB charging
- Tourist version

BS 11 A/B

Analytical balance

- Maximum load capacity: 180 kg
- Measurement accuracy: 0.1 kg
- Weight units: kg/lb/st
- Impedance analysis function bioelectrical, allowing to assess body composition, including muscle mass content, body fat (accuracy 0.01%) and body water
- Memory: up to 10 users
- Automatic switch-on ("step-on" function)
- Automatic shutdown
- Automatic calibration
- Battery charge indicator
- Glass platform
- Battery power supply: 2x AAA
- Platform dimensions: 30x30 cm

BS 11A/B

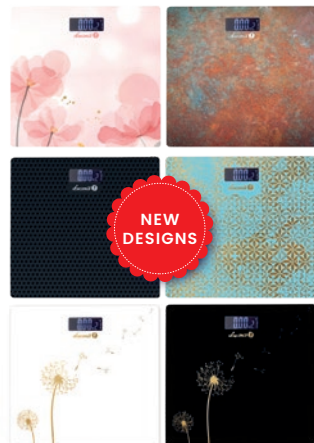

BS 973

Bathroom scales

- Maximum load capacity: 150kg
- Measurement accuracy: 0.1kg
- Weight units: kg/lb/st
- Battery power supply: 2x AAA batteries
- Platform dimensions: 28x28 cm

BS 973

BS 2018

Bathroom scales

- Maximum load capacity: 150 kg
- Measurement accuracy: 0.1 kg
- Weighing units: kg/lb
- Battery power supply: 2x AAA
- Platform dimensions: 28x28 cm

BS 2018

PT 852 EX

Kitchen scales

- Glass platform
- Units of measurement: g/lb/oz/ml/cup
- Precision weighing: from 2 g to 5 kg (accuracy of measurement: 1 g)
- Automatic shut-off
- Battery power supply: 2x AAA

PT 852 EX

KS 509

Kitchen scales

- Stainless steel platform
- Weighing units: g/lb/oz
- Precision weighing: from 2 g to 5 kg (accuracy of measurement: 1 g)
- Automatic zeroing and shutdown
- Tare function
- Depletion indicator batteries
- Battery power supply: 2x CR2032

KS 509

Helena 2060

Mechanical sewing machine

- Robust metal components and body
- 233 stitch programmes (including decorative and utility stitches) and 97 letters (technical and decorative), numbers and punctuation marks
- Stitch memory
- Automatic functions: needle threading, thread rewinding
- on the bobbin, buttonhole, thread cutter, stitch end lock, needle lift
- Possibility to modify a stitch: length and width adjustment, mirroring of a stitch, lengthening of a stitch
- Next-step guidance and machine failure warning system

Malwina 2070 BLACK EDITION

Electronic sewing machine

- 99 stitch programmes (including utility, overlock, elastic, decorative and quilting stitches) and 36 letters and numbers
- 8 types of automatic buttonhole buttonholes
- Extension table included
- Automatic threading on the needle, threading through the bobbin, locking and programming of the needle stop position
- Adjustment of stitch length and width - automatic stitch adjustment
- Rotary gripper (for quieter machine operation)

Patrycja 2090

Electronic sewing machine

- 198 stitch programmes (functional and decorative) and 194 letters, numbers and punctuation marks
- Automatic, 1-step buttonhole buttonholes
- Stitch memory
- Function buttons: automatic needle lift, automatic blocking, pattern extension and mirror image
- Needle positioning and double needle mode
- Possibility to sew without regulator (automatic sewing)

Teresa

Mechanical sewing machine

- Durable metal components and body
- 34 in-built stitch programs (including 8 overlock stitches, zigzag, triangle, tricot, elastic, satin, covered decorative)
- Length and width adjustment of all stitches
- Automatic, 1-step buttonhole buttonholes
- Automatic threading on the needle and threading through the bobbin
- High foot lift

Zofia II

Mechanical sewing machine

- 35 stitch programmes (including coverstitch, overlock, zigzag, tricot)
- 4-step buttonhole system
- Adjustment of stitch length and width
- Adjustable shoe pressure
- Possibility of sewing with a double needle

Kornelia

Mechanical sewing machine

- 48 stitch programmes
- Sewing of different materials: from stretch knitwear to denim
- High foot lift – possibility to sew several layers and thicker materials
- Adjustment of stitch length, width and thread tension
- Possibility of sewing with a double needle

Ewa II

Mechanical sewing machine

- 38 stitch programmes/22 without double needle (including critical stitch, overlock, elastic, zigzag)
- 4-step, semi-automatic buttonhole system
- Possibility of sewing with a double needle
- Adjustment of stitch length and width
- Adjustment of thread tension

Sylvie/Ivonne/Mia

Mechanical sewing machine

- 38 stitch programmes/22 without double needle (including critical stitch, overlock, elastic, zigzag)
- 4-step buttonhole system
- Possibility of sewing with a double needle
- Adjustment of stitch length and width
- Adjustment of thread tension

- Sylvie
- Ivonne
- Mia

Lena

Mechanical sewing machine

- 16 stitch programmes
- Needle shield (finger protection)
- Possibility of automatic sewing
- Reverse sewing function
- Built-in LED lighting
- Thread cutter

Overlock 2023

Specialist sewing machine

- Max. sewing speed: 1300 stitches/min.
- 12 stitches (overlock, rolling and flat lock)
- Sewing with 4, 3 or 2 threads
- Sewing with 2 or 1 needle
- Differential transport adjustment: from 0.7 mm to 2 mm
- Adjustable shoe pressure

Overlock 1200 D 4

Specialist sewing machine

- Max. sewing speed: 1200 stitches/min.
- 16 stitches (overlock, rolling and flat lock)
- Sewing with 4, 3 or 2 threads
- Sewing with 2 or 1 needle
- Differential transport adjustment: 0.7 mm to 2 mm
- Feet lift: up to 4.5 mm

The Tradition&Precision line

CRAFTSMANSHIP CLASSICS IN A MODERN STYLE

The Tradition&Precision line is a tribute to the 100-year tradition of the **Lucznik brand**. These exceptional mechanical sewing machines combine the best features of legendary models and the spirit of traditional craftsmanship – solidity, precision and reliability – with modern solutions that make work easier and more comfortable.

The **Master Craft 100.40 eco**, **Master Craft 100.60 eco** and **Master Craft 100.100** machines have been created with the most demanding users in mind – sewing enthusiasts who value durability, functionality, perfect workmanship and full control over every stitch. They allow even the most demanding projects to be realised.

WHY IS WORTH IT

choose machines from the Tradition&Precision line?

- **Reliable quality backed by a 3-year warranty** – the robust metal body, precision machined metal components and refined details guarantee durability for years to come.
- **Eco-friendly DC motor in eco models** – reduces energy consumption (by up to 30%) extends the life of the machine (by up to 50%), is cheaper to run (by up to 37%) and cares for the environment
- **Perfection in every stitch** – balanced mechanisms and adjustments ensure smooth running and excellent sewing precision.
- **Comfort and ergonomics** – quiet, stable operation and intuitive handling make sewing a pleasure.
- **State-of-the-art technology** – intelligent functions, a wide range of programmes and precise adjustments allow you to achieve even better results.
- **A style inspired by the classics** – an elegant, timeless design that combines tradition with modernity.

Master Craft 100.40 eco

- Robust metal body and durable metal components
- 22 stitch programmes (including 4 with overlock stitch)
- New eco-friendly engine:
 - cheaper to operate: nearly 37% lower power consumption*
 - more durable and efficient: 50% longer service life
 - energy-efficient: 30% less energy consumption
- High foot lift
- Semi-automatic buttonhole

Master Craft 100.60 eco

- Robust metal body and durable metal components
- 34 stitch programmes (including 8 with overlock stitch)
- New eco-friendly engine:
 - cheaper to operate: nearly 37% lower power consumption*
 - more durable and efficient: 50% longer service life
 - energy-efficient: 30% less energy consumption
- Adjustable shoe pressure
- Automatic buttonhole

Master Craft 100.100

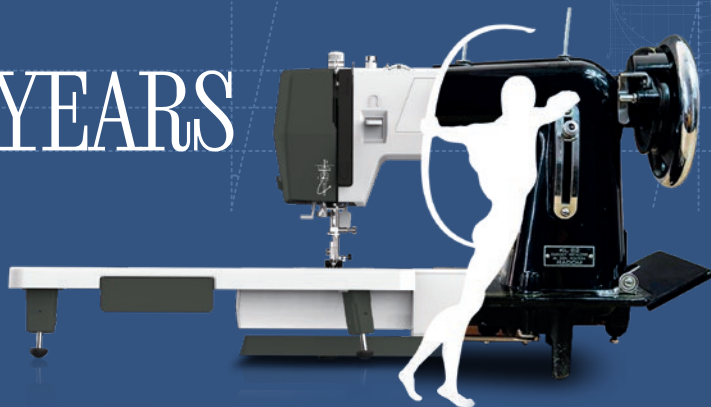

- Robust metal body and durable metal components
- Very high sewing speed: 1000 stitches per minute
- 24 stitch programmes (including 4 with overlock stitch)
- Field enlargement table
- Adjustable shoe pressure
- Metal work field trim and stitch plate with measuring tape
- Semi-automatic buttonhole

*Compared to AC motor. Maximum values.

Łucznik

100 YEARS

A TRADITION THAT LINKS GENERATIONS

We present six key dates, which built the legend of Łucznik:

1925 IT ALL BEGINS!

The Łucznik Metal Works is being launched in Radom. First weapons, bicycles, typewriters and tools – but in the background a passion for precision and technology sprouts.

1948 AT THE RHYTHM OF THE CLOTHING INDUSTRY

On the 30th anniversary of the restoration of independence, Łucznik begins production of lockstitch machines. This is the first step on the road to becoming a sewing icon.

1954 ŁUCZNIK ENTERS HOMES

The synthetic materials revolution opens the door for home sewing. Łucznik responds lightning speed – creating the first machines for use. From now on, we are with you: in homes, on tables, in moments of creative passion. It was on the Łucznik that your great-grandmothers, grandmothers and mothers sewed. Now it's time for you.

2004 NEW ERA FOR A LEGENDARY BRAND

After years of glory and a period of transformation, Łucznik gains new life – ASPA Capital Group from Wrocław acquires trademark licence "Łucznik", and just two years later becomes fully-fledged owner of the brand. This is a symbolic moment – history meets the future. ASPA, which has been supplying engines to machines 1958, is today restoring the lustre of a legend and giving it a new direction. It is thanks to this collaboration that we can proudly continue the tradition and continually develop the offer for the next generation.

2010 NEXT CHAPTER: SMALL APPLIANCES

We are expanding our range of white goods, combining functionality with aesthetics. From blenders, kettles and air fryers through modern hair dryers to irons, hoovers and air purifiers – quality you can trust.

2025 WE CELEBRATE 100 YEARS!

To mark this special occasion, we are introducing a new line of 'Tradition&Precision' machines – combining the legendary with modern technology. Classic design meets contemporary solutions, giving you the freedom to create at the highest level.
